SUMMARY

Information Technology student with proven leadership in research and organizational management. Skilled in full-stack development (MERN/MEVN, Laravel, Flutter), database management, and network security. Experienced in project coordination, event management, and creating technology-driven solutions that enhance productivity and streamline operations. Combines technical proficiency with strong communication and strategic planning abilities.

WORK EXPERIENCE

Leadership & Organizational Experience
- 4th Year Representative, CCS Student Government (2025 - Present)
- Stage Manager, AWS University ng Cabuyao (2025 - Present)
- Internal Vice President, SITeS Organization (2023 - 2025)
- Director, SITeS Membership and Election Committee (2024 - 2025)

Technical & Leadership Roles
- Principal Researcher, 1st STCIEERD Undergraduate Research Competition (2025)
- Leader, Undergraduate Thesis (2024 - 2025)
- Technical Committee, LagunaTech Computer Science Grand Summit (2024)
- Technical Support Head, Parangal ng Pasasalamat (2024)
- Technical Committee, CCS Thesis Defense (2024)
- Leader, NSTP CWTS Program (2022 - 2023)

Project Management & Event Leadership
- Project Head, CCS Kamustahan Friday Session (2025)
- Stage Manager, General Assembly (2025)
- Head Coach, Sportfest Track and Field (2023-2025)
- Head Committee, CCS Cheering/Bench Yell (2024)

Speaking Engagemen & Event Participation
- Participant, 1st STCIEERD Undergraduate R&D Competition (2025)
- Participant Let's Git Ready (2025)
- Panelists, NSTP CWTS Program Defense (2024)

Event & Committee involvement
- 2nd Placer, 1st STCIEERD Undergraduate R&D Competition (2025)
- Committee Member, AWS University ng Cabuyao (2024)
- Ushers, General Assembly (2024)
- Documentation Committee, Tara Kape (2024)
- Documentation Committee, SITeS x ITS CyberSync (2024)
- Documentation Committee, CCC x PnC Partnership Visitation (2023)
- NSTP Exemplary Awardee, NSTP Program (2022)

EDUCATION

St. Ignatius Academy - Cabuyao Campus
STEM Strand
with Honors

2021 - 2022

University of Cabuyao (Pamantasan ng Cabuyao)
Bachelor of Science in Information Technology

2022 - Present

KEY SKILLS

Administrative & Communication Skills
- Paperwork &Documentation (letters, reports, and event proposals)
- Public Speaking (panel discussions, leadership talks, and event hosting)
- Collaboration & Teamwork (co-leading projects and coordinating with multiple teams)

Leadership & Management
- Project Management (event planning, execution, and oversight)
- Organizational Leadership (student government and club leadership)
- Workforce Management (team coordination and delegation)
- Resource Management (budgeting, logistics, and allocation)

Technical & Creative Skills
- Programming: Entry-level coding in web and mobile development
- Graphic Design: Proficient in Canva for branding and marketing materials
- Network Security: Experienced in implementing security protocols, conducting vulnerability assessments, and monitoring network traffic for threat detection
- Spreadsheet Management: Proficient in Microsoft Excel and Google Sheets
- Database & Record Keeping: Organizes and maintains data, participant records, and historical documents for easy retrieval and reference

Dear Hiring Manager,

I am writing to express my interest in any opportunity that allows me to apply both my technical expertise and leadership experience to create meaningful contributions within your organization. As an Information Technology student with a strong foundation in programming, system development, and organizational management, I am passionate about integrating technology-driven solutions into various fields whether in operations, sales, human resources, or creative work.

Throughout my experience leading multiple events, including serving as Principal Researcher in the Southern Tagalog Consortium for Industry, Energy, and Emerging Technology Research and Development (STCIEERD) DOST Region IV-A 1st Undergraduate Research & Development Competition and Leader in Undergraduate Thesis, achieving 2nd place in the 1st Undergraduate Research & Development Competition and Best in Thesis — I have built strong skills in leading research projects, working with technical concepts, and collaborating with teams. These experiences taught me how to manage research work effectively, present complex ideas clearly, and deliver quality results in competitive academic environments.

Beyond my technical skills in Java, Laravel, React, Flutter, MySQL, MERN stack, MEVN stack, Figma and GitHub, I specialize in applying these tools to enhance workplace productivity and efficiency. For instance, I have developed a mobile-based real-time emergency response system that connects residents directly with the nearest police officers, making incident reporting easier while enabling real-time tracking and optimized emergency response management. I focus on creating practical solutions that solve real-world problems and improve how people work and communicate.

My diverse experiences have also strengthened my creative and analytical abilities — from designing marketing materials using Canva and coordinating documentation systems, to managing complex spreadsheets and maintaining comprehensive databases for organizational use. My roles as Stage Manager for AWS University ng Cabuyao events and Project Head for various initiatives have honed my ability to balance technical execution with strategic planning and stakeholder communication.

I am particularly interested in joining an organization where I can continue to combine technology, creativity, and collaboration to deliver impactful results. My experience in network security, combined with my skills in full-stack development and data analysis, positions me to contribute effectively to projects that require both technical depth and practical implementation. I take pride in my adaptability and eagerness to learn, qualities that allow me to contribute effectively in any professional environment.

I am confident that my unique blend of technical proficiency, leadership experience, and problem-solving mindset will enable me to bring value to your team. Whether supporting IT infrastructure, developing innovative digital solutions, or coordinating cross-functional projects, I am ready to apply my skills to help your organization achieve its goals.

Thank you for considering my application. I would greatly appreciate the opportunity to discuss how my background in information technology, research, and leadership can contribute to your organization's success.

Sincerely,
Jude Christian D. Del Rosario
